

HOW CAN I HELP?

People ask “how can I help?” | Easy! | Pick an action

Being Julian’s Voice

Julian, in Belmarsh Prison, has no way of defending himself.

He has no internet, no laptop, & restricted access to his lawyers.

He needs our support. We must act to get our government to intervene to stop US extradition of Julian.

Why Stop His Extradition?

Two main reasons:

1. We stand up for our nation’s stars! Whether they are sports persons or intellectuals.

Julian is a star – an Australian intellect, born in Townsville, educated at Central Queensland University and the University of Melbourne. He has won the highest awards for his journalism and has been nominated 7 times for the Nobel Peace Prize.

2. 17 indictments under the US Espionage Act means Julian faces 170 years in a US Supermax prison, which Bob Carr (former Minister for Foreign Affairs) described as a death sentence. If successful, this means US law is global.

1. Sign the Petition

Sign a petition, or sign many. There are a number of petitions online in support of Julian.

2. Inform

3. Spread Facts

Many people only hear or know of the propaganda and character attacks. They may not know the truth. Reach out. Promote and share Wikileaks publications: wikileaks.org.

How It Affects Us

Putting Julian aside, this is about our freedom of expression, our free press and our right to know the truth – important if we want to live in a democracy.

“Without a free press, the country goes straight to hell” ~ I F Stone

It's obvious the implications will affect journalists, but...

Consider also the academics who publish their work in political science or history, etc. What about social media? How far will this extraterritorial reach of another country's law extend?

Julian Needs Us

In a letter from prison to an independent journalist, Julian wrote of this dire situation and how “it's up to people of good character to save my life...Truth is all we have”.

If the US are successful, Julian will be tortured and incarcerated for the rest of his life. This sets a new precedent for free press.

We can help avoid this travesty. Your actions count, even if small.

Remember...“From little things, big things grow” - Paul Kelly

We are the key.
