

ASSANGE IS THE FIRST JOURNALIST IN HISTORY THE U.S. HAS CHARGED WITH ESPIONAGE FOR PUBLISHING!

JULIAN ASSANGE is UNLAWFULLY detained in Her Majesty's Prison Belmarsh, awaiting extradition to the USA for charges brought under the 1917 Espionage Act. This will be a forced rendition to the country *most embarrassed* by his revelations of war crimes.

For 13 years, Nobel Peace Prize Nominee, Julian Assange, has published truth on torture, war crimes, spying & illegal government behaviour in the public interest, without need for a SINGLE retraction.

For these contributions to public accountability & the historical record, Assange has been ARRESTED in the UK & INDICTED by a US administration hell-bent on criminalising basic journalistic activity.

Assange faces the prospect of life imprisonment or the death penalty issued via military court WITHOUT JURY or DUE LEGAL PROCESS.

Tens of thousands of Wikileaks publications have been used as court evidence in human rights, genocide and corruption cases.

When you embarrass governments because you think that the public has a right to know that their tax dollars are being spent on financing illegal war crimes, then there are very few people to celebrate your birthday with.

When it has been proven that documents released, placed no operation, nor anyone in danger and that the majority of these documents were illegally classified 'Top Secret' in order to hide their criminal intent, then prepare to go to jail and pay \$1,000 / day for this crime against the State, meanwhile war crimes go unaddressed. (\$440,000 by July 2020)

In fellowship and long sufferance with political prisoner, Julian Assange, Chelsea Manning resides indefinitely in prison today. She still refuses to help the US indict Julian Assange on trumped up charges that threaten journalists' rights to publish embarrassing truths about governments worldwide.
